

# Final Presentation

## Data Visualization Associate Internship

0801|Group 5B

### Dashboard Presentation

The final presentation we prepared covered a lot of grounds. It began with an overview of the dashboard, followed by a discussion of the purpose of the dashboard and its key components. We also discussed the challenges we faced and the decisions and solutions we implemented to overcome them. We ended the presentation with some key questions and I gained insight from the dashboard and how they impact the overall decision-making process.
